# Presentation of the club

The volleyball section was established in 1992. Until then there was no organized training for women in the Municipality of Piran.

Every year, organized volleyball training is attended by over a hundred girls from the 1st grade of elementary school on. In national championships we compete with all selections, but we also have a recreational group.

Volleyball training is also conducted at all elementary schools in the municipality of Piran.

We do not stop practicing during the summer. We practice beach volleyball then.

In the previous years of training, we were state sponsors for cadets. So far, we have been national vice-champions in cadets.

We won the quarter-finals in the Cup and many tournaments. We received recognition for the team of the year, we won the titles of national champions in girls and cadets in beach volleyball.

The cadets also ranked the European Championship. This is only part of the successes we are most proud of.

Most importantly, the girls are dealing with something. They are happy and grow up in a healthy and safe environment of volleyball.

Our personnel is a well trained in training. It encompasses professors of sports education and coaches with the state exams.

In our ranks we also have volleyball judges with a valid license.

# ŠD Piran - volleyball

# Season's achievements

In the previous competitive season, 2016/17, a member team in the 3rd National league won the first place and was ranked in the 2nd National league, in which this season will perform. Cadets competed in the A National league, for which they will fight this year as well.

The youngest girls compete in national competitions and are year by year more successful.

*Tournament of minivolley*

Participation of the youngest in international tournaments means a lot to them, as they get to know new places and friends.

*Tournament in Trieste*

Older girls are present at numerous tournaments at home and abroad.

*Cadet tournament in Umag*

During summer, members were active in other forms of volleyball.

*Volleyball tournament in Poreč on floating volleyball court.*

2016/2017

# Our goals

Younger teams will compete in all categories of the national championship in this season and try to rank as high as possible. A member team will perform in the 2nd National league with the aim of being ranked in the upper part of the scale, and thereby the possibility of being ranked in the 1stB National league in the next season.

*Sports camp RT Seča*

On the initiative of the players and their parents, we want to revive beach volleyball practice and succeed in this area again. To achieve this goal, we plan to build the playground in the sand on the cape of Seča.

The society operates in the public interest and is partially co-financed from the municipal budget for the implementation of the program. However, the share of co-financing by the municipality is lower every year and does not allow the entire society to function. That is why we ask you for your help.

You can help us with sponsorship, donations, or grants in the form of money, transport, various services or products. We will be pleased if you contact us to agree on the form of assistance.

In return, we can offer you advertising on our web pages, on the Facebook page, banners at home matches in the Lucija sports hall, and in the future playground in the sand on the cape of Seča.

Thank you for considering our application. All the members of the volleyball section ŠD Piran kindly greet you.

Piranske odbojkarice so se uvrstile v drugo državno ligo

## Kot ena velika družina

Letošnja tekmovalna sezona bo v zgodovini skromnega piranskega športnega društva zapisana z zlatimi črkami.

**PIRAN** ► Odbojkarice Pirana so namreč že dva kroga pred koncem prvenstva zmagale v zahodni skupini tretje lige. "Seveda smo z obetavno generacijo računali na napredovanje, a je bilo to v naših načrtih šele za prihodnjo sezono. Dekleta so z zavzetim delom cilj izpolnila že letos. V društvu smo se začeli pripravljati, da bi jim za novo sezono omo-

gočili boljše finančne in organizacijske razmere," je povedal predsednik kluba **Bogdan Pajek**.

Trener deklet **Goran Jočič** je dodal: "Uspeh je plod načrtnega ekipnega dela. Vse igralko so odbojko začele igrati v našem društvu, kjer smo kot ena velika družina. V drugi ligi ne nameravamo igrati le eno sezono."

Klubski uspeh so dopol-

Vesele Pirančanke na igrišču

Zmago za OK Piran v zahodni skupini tretjeligaškega prvenstva so priborile: **Sanja Bečaj, Amedea Benussi, Sabrina Calcina, Neža Fajt Pišter, Lavinia Hočevar, Vanja Jeftenič, Kristina Kleva, Alenka Kološa, Nika Leskovar, Sabina Marancina, Delzy Memić, Lana Pavlovič, Helena Škerjanc** in **Eva Susman**.

nile tudi kadetinke, ki so se uvrstile v A ligo državnega prvenstva igralke do 16 let.

Uspeh odbojkaric je še toliko pomembnejši, saj so v

zadnjem obdobju v piranski občini po vrsti usahnili (ali pa usihajo) še pred leti stabilni klubi v moštvenih športnih panogah. **BG**
